The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on

Industrial and commercial photovoltaic energy storage integrated cabinet with capacities from 10-430kWh and PCS power up to 100kW. Features multi-level security protection, 99% maximum

Designed for solar energy storage, grid stabilization, and off-grid power supply, these cabinets provide a seamless and efficient energy storage solution for various applications.

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote

The EK indoor photovoltaic energy storage cabinet series is an integrated photovoltaic energy storage device designed for communication base stations, smart cities and other scenarios,

Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal management, and

This article explores real-world considerations for deploying mobile & ESS in U.S. markets,

High Temperature Resistant Smart Photovoltaic Energy Storage Cabinet for Shopping Malls

explains the unique benefits over conventional approaches, and illustrates how RICHYE's high-quality lithium

Combines high-voltage lithium battery packs, BMS, fire protection, power distribution, and cooling into a single, modular outdoor cabinet. Uses LiFePO₄ batteries with high thermal stability, extensive cycle
